SELECTED SPECIES OF

第五月 十英港香

PURE VOLATILE EUCALYPTUS OIL. DISTILLED FROM THE LEAVES OF

EUCALYPIUS. ENUCALYPTUS OIL has long taken a foremost place as a "household remedy" in Australia. When applied externally it has a powerful stimulant and soothing action but does not blister the most sensitive skin and no application known will so quickly subdue the pain of muscular rheumatism.

Taken internally in small desea, it acts as powerful stimulant and autispasmodic, whilst its secondary action induces sleep. The penetrating agreeable vapour of the Oil is sedative, and when inhaled relieves Asthma. Bronchitis, Catarrh, and Sore Throat. It is also a most powerful aptisantic and germicide, being three times as effectual as Carbolic Acid in preventing development of Bacteria, its uses in this direction being very numerous. The active properties of the Oil depend upon l'erpene called Eucalyptol, and we guarantee port for the last Season and electing the Com-

sense and preferably with nautical experitions should be acted upon without demar the opinion of the Colony, lie does not fulfil and the taxpayers have a right to complain when they see the funds voted for carrying it out expended for other though admittedly scientific objects. The Observatory was established primarily for the purpose of obtaining weather forecasts, in order that typhoons and gales could be studied and their course and rate of travelling are rately predicted. That Dr. Doburck has studied the subject no one will deny, but that he has made the most practical and most timely use of the information be is in a position to obtain is strongly disputed. Sometimes, however, the case against him is put with absurd extravagance. It has been asked, for instance, how it is that our first typhoon warnings still come from the Manila Ob. servatory through the Spanish Consul. It Thomas, to the Impérieure (additional), to date would be as reasonable to ask how it is that Sept 3. ships coming from the south can be sighted from Gap Rock before they are seen from the principals being two Danes, who fired at the Peak. So far as typhoon warnings are [19] concerned, if we take the last two as a sample, there is not much to complain of, though some previous ones unfortunately cannot the wife of Mr. A. G. Gordon, of a daughter. [2142] be referred to in the same terms. What we
